

Defender[®] Signal Blocker

Secured by Design

Police Preferred Specification

Instructions for Use

- 1.** Place your phone or fob inside the rear pouch, marked 'insert here' (**this is the only blocking pouch**).
- 2.** Close seal the velcro flap, ensuring no gaps.
- 3.** Within 5 seconds for phones and 10 seconds for fobs, all signals will be blocked.
- 4.** Remove your phone or fob and all signals will return as normal in less than 5 seconds.

award-winning range!

This product has been carefully designed and manufactured to the highest standards.

With proper usage and care it can provide a lifetime of protection.

You can maximise the product's performance and life cycle by following the below guidance:

1. Do not rip or tear the material.
Even the smallest hole can reduce or remove the blocking capability. Take care if inserting keys or sharp objects.
2. Do not fold or crease the pouch e.g. to fit in a pocket or bag.
Long-term creasing of the material can reduce or remove the blocking capability.
3. Do not wash the pouch or subject to rainfall.
Prolonged exposure to water can reduce or remove the blocking capability.
