

# LUMOS LED TORCH

Handheld LED Torch

Product Code: OT00981

## Introduction

The handheld Defender Lumos LED torch has a tough aluminium alloy body with a micro textured barrel for improved grip. It has been designed with a 120 metre beam distance and offers a bright 230 lumens output. The Defender Lumos LED torch has a waterproof rating of IP54.

The torch is battery operated and requires 3 AAA batteries which are supplied and fitted.

## Contents

- Handheld LED Torch
- Wrist Strap
- 3 x AAA Batteries

### Also Available:

Belt Holster	OT00986
KlickFast Holder	OT00991
Molle Pouch	OT01208

## Operation

To switch the torch on, lightly press the bevelled button at the tail cap of the torch and release. Press and release again to switch the torch off.

### Note:

When using the torch for the first time the protective battery tab will need to be removed and discarded from the battery compartment. Please refer to Battery Replacement section for guidance on accessing the battery compartment.

## Battery replacement

To install/replace the batteries, unscrew the end cap in a counter-clockwise direction until fully unscrewed. This will reveal the battery compartment. Insert the batteries into the battery compartment ensuring the correct polarity (+ - + -). If the batteries are inserted in the wrong polarity the torch will not work. Then insert the battery compartment into the torch body. With the batteries correctly installed replace the end cap back to the torch body, ensuring the spring is centralised, and turn in a clockwise direction until fully tightened. The Defender Lumos LED torch is now ready to use.

### Note:

Performance may be adversely affected following prolonged exposure to extreme temperatures.

### WARNING

Do not look directly into light source, do not point directly into the face of others, keep away from children. Before first use, point away from eyes.
