Locks Occupied Rooms Against Intrusion

Product Code: HA00751

Temporary,
easy to use

Portable &
Lightweight

Safe & Durable
Construction

Introduction

The Howsar Quick Lock is a simple gadget which can be fitted to nearly all internal doors to keep intruders out while you sleep.

How it works

1. Open the door and place the flat plate into the door jamb.
2. Close the door.
3. Slide the curved hook through the exposed hole in the plate.
4. To unlock the door simply slide the curved hook out of the hole in the plate and open the door.

WARNING

This product is not intended to replace permanent locks where appropriate. The Howsar Quick Lock offers temporary basic barrier and deterrent protection against intruders.
