

Luna 2.0 Personal Attack Alarm

Stylish personal alarm with strobe

Product Code: AL00044

Introduction

The Defender Luna is a modern and stylish companion to give you peace of mind. Carry it with you when on the move and activate it if you feel threatened. The piercing 125dBs siren plus strobe will deter threats and attract attention. Walk with confidence.

Operation

The Luna utilises a user-friendly ring-pull operation. Simply place your finger in the gap and firmly pull to remove the entire ring.

NOTE: the siren will sound immediately. This is loud!

To de-activate, replace the pin into the alarm fully.

VIDEO

Battery Replacement

Unlike older alarms, the Defender Luna comes with an easy-access battery compartment for rapid replacement wherever you are. No screws or tools needed. Please read this section carefully to ensure you avoid accidental activation of, or damage to, the alarm during the process.

Your Defender Luna is powered by 2 x CR2032 cell batteries with a low battery indicator built in. When you hear a constant beeping, it means batteries are low and need changing.

With the front-side facing up, place your right index finger in the ring-pull and your left hand around the alarm body; firmly, but not aggressively, twist the ring-pull away from you, 90 degrees in a clockwise direction, until the alarm body opens and the pin detaches, then separate the two sides.

Push out the old batteries from the holder, using a small screwdriver or similar if needed, then replace with like for like CR2032, noting the correct polarity. To avoid damage to the alarm trigger, clip the body back together before re-inserting the pin - the alarm has a built-in sensor that ensures it will not activate at this stage - then re-insert the pin to complete the process.

WARNING

The high output siren fitted to this quality personal alarm may cause ear damage if used at close range for a prolonged period of time. Keep away from children and pets ears. This product is designed for use as a deterrent; it does not guarantee protection or personal safety.

CAUTION

When testing the alarm, make sure you hold it at least at arm's length away from your ear. The power source or propellant has a finite / limited life.
DO NOT MODIFY THE ALARM.
The alarm should be kept out of reach and audible range of children and pets.

Note: Performance may be adversely affected following prolonged exposure to extreme temperatures.

Personal Safety Alarm Guidance

It is advised that use of an audible personal alarm should not be relied on as the sole means of preventing an attack and should be used in conjunction with other precautionary measures.

Please note the following advice:

General use

Always have the alarm close to hand and ready for use.
Plan your route / journey in advance.
Tell someone where you are going and what time you will be back.
Walk with confidence.
Be alert.

When in your car

Always have the alarm close to hand and ready for use.
Always park in well lit areas.
Have the keys ready as you approach your car. If another vehicle (including the police) is signalling you to stop, do not pull over in an isolated spot, wait until you reach a safe area.
Be alert at all times.

Before you use your alarm

Be sure you know how to activate and de-activate the alarm. Make regular checks on power and at the first indication of a weak sound, replace the battery.
Practice appropriate means of carrying the alarm ready for use.
DO NOT SHINE THE STROBE DIRECTLY INTO EYES.

Remember

Personal safety alarms are designed for use by individuals who are under threat from attack and should be used with care and responsibility. It is intended to shock and disorientate an attacker to provide a distraction so that the user can make an escape.

It is not intended to be used as a distress signal for attracting help and attention. However the noise may induce intervention and detection of others so this is an opportune secondary function.

DON'T FORGET AN AUDIBLE PERSONAL ALARM SHOULD NOT BE EXPECTED TO PROVIDE A COMPLETE SAFEGUARD AGAINST ASSAULT AND USERS SHOULD ALWAYS TAKE SUITABLE PRECAUTIONS
