

HYLITE WORK-LITE

Product Code: OT01478

Contents:

- 1 x Hylite Work-Lite
- 1 x Type C charging cable

Batteries

2 x 18650 lithium-ion (sealed), 4400mAh total capacity.

Maximum battery life = 7.5 hours (if on constantly at maximum power level, see below).

Charging

Check and charge fully before first use.

Insert the cable into the charging port and connect the other end to a power source (max 5V, 1A).

See the LED charge indicator for battery life; charge when low and disconnect when full.

Full charge time = 3.5 hours.

Operation

Press and hold the side button to switch between lighting modes.

Once a mode is selected, single press the button to cycle through the power levels within that mode:

- White Floodlight 5% power
- White Floodlight 30% power
- White Floodlight 100% power (= maximum power level; 1,100 lumens, 75 metres)
- Red Floodlight 100% power
- Red Floodlight Flashing
- White Torch Light 20% power
- White Torch Light 100% power

Mounting & Usage

The Work-Lite possesses a 180 degree adjustable bracket for multiple free-standing options, plus a hook built into this bracket for hanging. There is a strong magnet on the rear of the light body for metal mounting. The Work-Lite is IP54 tested and has an operating temperature of -20 - 60 C.

Warranty

This product comes with a standard 12 month warranty. Contact the below for details or claims.

WARNING

Do not shine light directly into eyes.
