

Card Defender Finder

User Manual

Part of the award-winning range of Card Defender items, the Finder is a fully Apple MFI & Google certified Find My card that allows you to locate your valuables anywhere in the world via the Find My or Find Hub apps.

Key Points

- Insert or attach the card to valuable such as wallets, bags or luggage, locating them globally.
- Fully certified to work with Apple Find My or Android Find Hub app; view your valuables on-screen, anytime.
- Play a 60dBs finder tone when within Bluetooth range.
- Contains a 110mAh battery with a 6-month standby time.
- Wirelessly recharge the card with MagSafe.

Set Up Instructions for Apple iOS Device

Note: The Card Defender Finder can only be connected to one device at a time. Connect it to the device you wish to use to find its whereabouts. Usually this is your phone.

- 1.Ensure Bluetooth is enabled on your Apple device.
- 2.Open the Find My App.
- 3.Press and hold the card's power button until you hear a tone. The card is now activated.
- 4.Hold the card near your Apple device, tap the "Items" tab on the app, then "Add Item", then "Other Supported Item".
- 5.The Card Defender Finder should shortly appear. Tap "Connect" to pair and accept the connection request.
- 6.Follow the on-screen instructions within the app for customizing and using your card.

Your Card Defender Finder should now be successfully connected to your Apple device.
If the Card Defender Finder does not show up on the list of devices, please follow the reset instructions below.

Disconnecting from Apple iOS Device

Scroll to the bottom of the Find My app and select "Remove Item". Locate the Card Defender Finder and complete the removal to disconnect it from your linked device.

Set Up Instructions for Android Device

- 1.Ensure Bluetooth is enabled on your Android device.
- 2.Download and login to the Find Hub app and turn on the Card Defender Finder
- 3.Tap "Connect" then "Agree" and continue
- 4.Tap "Open App" to complete pairing

Disconnecting from Android Device

- 1.Tap Setting icon
- 2.Tap "Remove from Find Hub"
- 3.Tap "Remove"

Note:

- 1.Once paired with Apple or Android, the Card Defender Finder cannot be used with the other system unless it is reset.
- 2.Long press for 3 seconds until you hear 3 beeps. The Finder will enter sleep mode and cannot be used.
- 3.Press once until you hear a beep. The Finder will power on.

Resetting the Card/Pairing Issues

- 1.Short press the power button once, then press and hold the button for 5 seconds and release when you hear 3 beeps. This indicates a successful reset. Try the Set Up steps above again.
- 2.If Option 1 does not work, try restarting your Apple/Android device. Try the Set Up steps above again.

Important: If you have already connected the card to the app or a device, please disconnect it by following the steps above before retrying the pairing process.
