

LUMOS HEAD TORCH

Multi-function torch with head strap

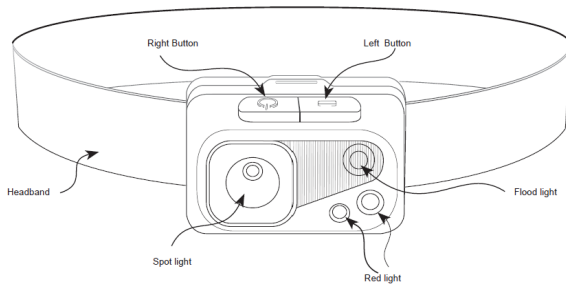

Product Code: OT01508

Introduction

The Defender Lumos Head torch houses 3 lights with adjustable outputs up to a maximum of 230 lumens. The robust ABS body is IPX7 waterproof and can be angled within its bracket for optimal lighting whilst the head strap is also adjustable and contains a reflective strip for maximum visibility after dark. The torch is battery operated and requires 3 x AAA batteries, which are supplied.

Contents

- Head Torch
- Head Strap
- 3 x AAA Batteries

Operation

Spot Light

Press the Right button once to activate maximum brightness (230 lumens, 2 hours).
Press the Right button again to activate medium brightness (120 lumens, 4 hours).
Press the Right a third time to turn off.

Flood Light/Night Light

Press the Left button once to activate maximum brightness (45 lumens, 5 hours).
Press the Left button again to activate the Red night light (2 lumens, 24 hours).
Press the Left button a third time to turn off.

Batteries

To install/replace the batteries, pry open the front edge of the torch body to reveal the battery compartment. Insert or replace 3 x AAA batteries, noting the correct polarity. Close the cover.

WARNING

Do not look directly into light source, do not point directly into the face of others, keep away from children. Before first use, point away from eyes.
